

# GIGACAM™ MEGACAM™

Keep an eye on your world

*See who's at the door.*

*See and hear what is happening in the garage or in the nursery  
from your living room or kitchen.*

*Robust aluminium housing for  
indoor and outdoor use.*

**MARMITEK**

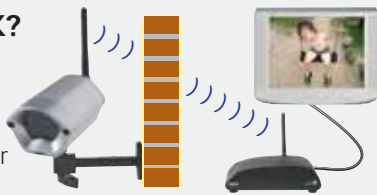

**GIGACAM 4 SET**  
Wireless surveillance camera for indoor and outdoor use.

- Image and sound.
- Easy to connect to your TV or VCR.
- Receiver automatically switches between up to 4 cameras.

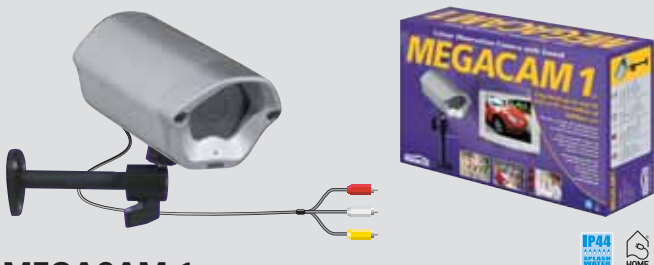

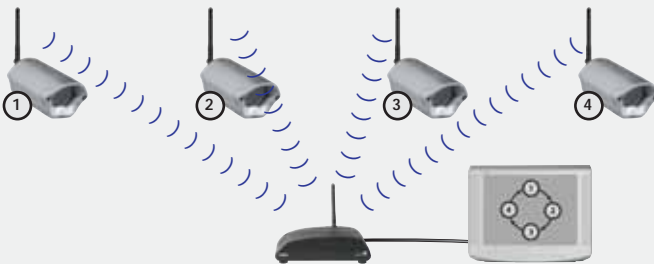

**HOW DOES IT WORK?**

The set consists of a wireless colour camera and a receiver. Install the camera wherever you want, in- or outside. Then connect the receiver, using the cable included, to the Scart connection on your TV or VCR. The camera will transmit the images and sound to the receiver, wirelessly, even through walls and ceilings. Power adapters for the camera and receiver are included.

**WANT TO CONNECT MORE CAMERAS?**

You can add a maximum of 3 extra wireless cameras to extend the GigaCam 4 set. With multiple cameras the receiver will automatically switch between the connected cameras, using an interval of 4 or 8 seconds.

**MEGACAM 1**  
Camera with cable connection for indoor and outdoor use.

- Image and sound.
- Easy to connect to your TV or VCR.
- Including 15 m cable.
